

Panda Internet Security 2010 Testimonial

By Agnes Johnson,

Pros: Really soft and great protection for PC. Powerful armour. Excellent Firewall

Use Cloud computing technology!

Cons: Not for now

Summary: Recommended buy

By Tim Iowa,

Pros: heals and disinfects viruses

Cons: unable to control scans and updates

Summary: Very useful and protective!

By Jack Summerson Awright,

Pros: Effective in scanning as the virus database is constantly updated

Cons: The menu can be quite tricky

Summary: A good system to protect your computer against all type of threats

By Iliana,

Pros: Good support, easy to install

Cons: none at the moment

Summary: For the price that you are paying, good software

By Owen Wilson,

Pros: Able to detect so many hidden threats that my previous scanner can't even find

Cons: Sometimes takes too much resources

Summary: If you want a virus scanner that works, this is the system that you should get
